

VOTING DAY IS NEAR (an Acrostic)

Voting time is upon us

One time when we can choose who should govern

The time that many wish they could have but it is forbidden

I have cast my ballot; I will not neglect this privilege

No, do not be apathetic

Go vote, go vote!

Do not shun a day many would die to have

All around the world death is the result of asking for the right to vote

Yes, go vote, go vote!

If you do not, change might come for the worse or it won't come at all

So go vote and insure change happens for the better

Never forget, people, women have had the right to vote for over 100 years

End the belief, oh people of youth, that the young don't vote

Always remember voting day is a day many have longed for but have not had, and have died trying to get.

Remember to go vote and celebrate New Zealand by participating in its democracy!
